How to reset the Ezeelogin gateway user password/security code?

Overview: This article assists gateway users in resetting their passwords and security codes through the Ezeelogin GUI.

Step 1: Log in to Ezeelogin GUI as the user whose password needs to be reset and navigate to **Account -> Password -> New Password -> Enter new password** and save.

The screenshot displays the Ezeelogin GUI interface for changing user credentials. The left sidebar shows the navigation menu with 'Account' and 'Password' highlighted. The main content area is titled 'Change password, security code, two factor secret' and contains several input fields and buttons. The 'New Password' and 'Confirm Password' fields are highlighted with green boxes. The 'New Security Code' and 'Confirm Security Code' fields are also present, along with 'Generate' buttons. The 'New Access Keyword' and 'Confirm Access Keyword' fields are visible, along with 'Generate' buttons. The 'SSH Private Key' field is a large text area. The 'SSH Key Passphrase' field is a text input. The 'Authorization Password' field is highlighted with a green box. At the bottom right, there are 'Cancel' and 'Save' buttons, with the 'Save' button highlighted with a green arrow.

Authorization Password: The Authorization Password is the password of the currently logged-in user. For example, if you are logged in as "ezadmin," you should use the password of "ezadmin" user as the Authorization Password.

Step 2: To reset the security code navigate to **Account -> Password -> New Security code -> Enter new security code** and save.

The screenshot displays the Ezeelogin user interface. On the left, a sidebar menu is visible with 'Account' and 'Password' highlighted. The main content area is titled 'Change password, security code, two factor secret'. It contains several input fields and buttons:

- New Password:** A text input field with a 'Generate' button to its right.
- New Security Code:** A text input field with a 'Generate' button to its right. A green arrow points to this field.
- New Access Keyword:** A text input field with a 'Generate' button to its right.
- SSH Private Key:** A large text area for entering a private key.
- Confirm Password:** A text input field.
- Confirm Security Code:** A text input field. A green arrow points to this field.
- Confirm Access Keyword:** A text input field.
- SSH Key Passphrase:** A text input field.
- Authorization Password:** A text input field.
- Buttons:** 'Cancel' and 'Save' buttons are located at the bottom right. A green arrow points to the 'Save' button.
