## **Enabling and Viewing RDP Recordings in Ezeelogin**

**Overview:** This article guides you through enabling RDP recording in Ezeelogin. Navigate to **Ezeelogin GUI** -> **Settings** -> **General Settings** -> **Security** -> **RDP Recording**. Use the RDP Recording button on the left menu to view and search recordings. Control playback with the space bar and number keys for speed.

Step 1: Enable RDP Recording from Ezeelogin Gui: Settings -> General -> Security -> RDP Recording

ezeelogin			Velcome, Administrator L

- NLA is currently supported. If the user enables it, the username and password must be saved when adding the RDP server to Ezeelogin.
- If the user **does not enable NLA**, they can choose whether to save the username and password in Ezeelogin, as **both options will work.**

#### Note:

#### Q) Where are the RDP session recorded stored?

/var/log/ezlogin/rdp/{username}

Replace the username with your Ezeelogin gateway username.

#### Q) What is the video format in which the RDP session recorded are stored?

**RDP Bitmap Delta Stream** 

#### Q) Is it possible to play the RDP session recorded in external media players like VLC?

It's not possible because it's not in any standard video format.
