

Connect jumpserver using PuTTY

263 Manu Chacko October 18, 2024 [General](#) 10629

Connecting to a remote server managed by ezeelogin using PUTTY

Overview: This article describes how to connect to a remote server managed by Ezeelogin using PuTTY.

Step 1: Open PuTTY and enter the **Ezeelogin/Jumpserver IP or Hostname** along with the **Port number**. Click "**Open**" to initiate the connection.

Step 2. Provide your Ezeelogin **username and password** when prompted.

Step 3. If enabled, **enter the Security code or complete Two Factor Authentication** to access the Ezeelogin shell (ezsh).

Step 4. Upon successful authentication, you will enter the Ezeelogin shell (ezsh). The initial screen displays a **list of server groups**. Navigate through the list using **arrow keys** and
