Steps to re-add a reinstalled server

Overview: This article outlines the steps to re-add a reinstalled server. First, select the reinstalled remote server and reset the SSH fingerprint. After resetting, update the new password in the Server -> Edit server section.
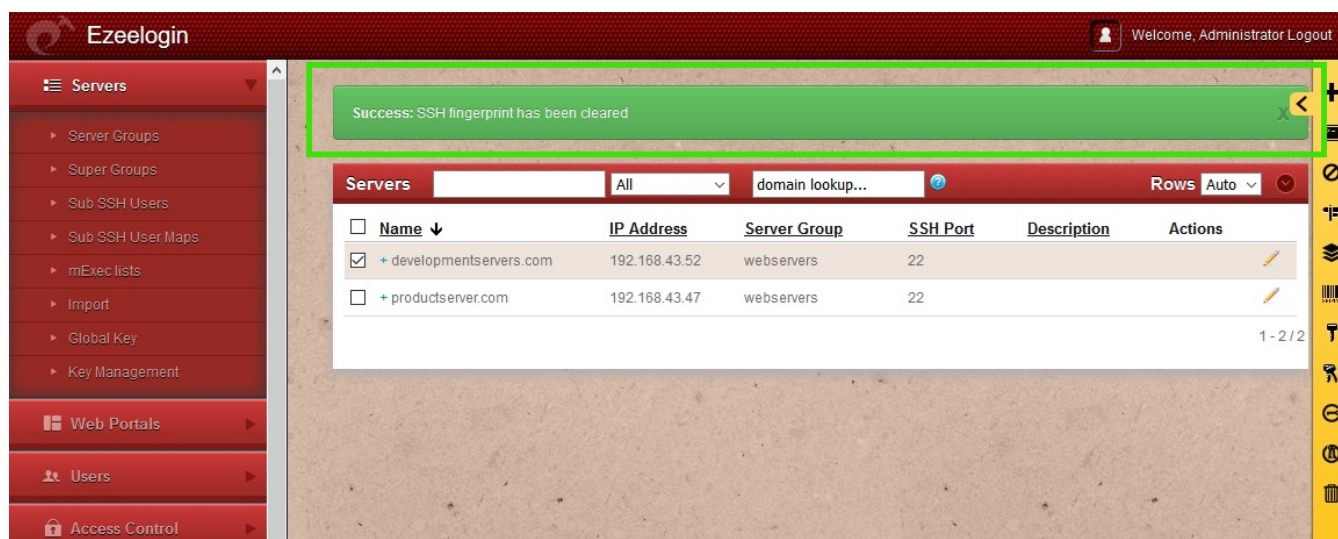

Step 1. Select the reinstalled remote server and Click [barcode icon] to reset the ssh fingerprint.

 As shown below you can see the confirmation

Step 2. After resetting the SSH fingerprint, you need to update the new password in **Server ->Edit server**
