

Trying to install or update a secondary as primary. Use -as_primary option to force it.

347 Riya Francis February 27, 2023 [Common Errors & Troubleshooting](#) 2301

Error: Trying to install or update a secondary as primary. Use -as_primary option to force it.

```
Trying to install or update a secondary as primary. Use -as_primary option to force it.  
Please contact support@ezeelogin.com
```

This is because you are trying to install or upgrade the master node that has been issued a secondary license for its IP in the customer portal.

1. If you want to install secondary as primary, run the below install script.

```
root@localhost:# sh ezlogin_7.x.x_php71.bin -- -as_primary
```

2. If you want to upgrade secondary as primary, run the below upgrade script.

```
root@localhost:# sh ezlogin_7.x.x_php71.bin -- -update -as_primary
```
