How to delete all users in Ezeelogin?

Overview: This article describes how to delete all users in Ezeelogin by adjusting the user display to 100 rows, selecting all users, and clicking delete, with additional steps if the super admin user cannot be removed.

Caution: The following steps will delete all the Ezeelogin Users that have been created.

1. Change the number of [users](#) listed in Ezeelogin to maximum by selecting the Rows to 100.

2. Select all users in Ezeelogin and click on the delete button to remove the users.

The screenshot shows the Ezeelogin web interface. On the left is a sidebar menu with 'Users' highlighted in a green box. The main content area displays a 'Delete' dialog box with the text 'Confirm delete selected item(s)?' and 'Yes' and 'No' buttons. A green arrow points to the 'Delete' button. Below the dialog is a table of users with columns: Username, First Name, Last Name, Email, Status, Expiry, User Group, and Actions. The table contains four rows: Aron (Active, Admins), Catherine (Suspended, Dummy), Celin (Active, Admins), and Irin (Active, Dummy). A green arrow points to the 'Users' menu item in the sidebar.

<input checked="" type="checkbox"/>	Username	First Name	Last Name	Email	Status	Expiry	User Group	Actions
<input checked="" type="checkbox"/>	Aron	Aron		Aron@lfactory.com	Active		Admins	
<input checked="" type="checkbox"/>	Catherine	Catherine		Catherine@doodle.com	Suspended		Dummy	
<input checked="" type="checkbox"/>	Celin	Celin		Celin@cater.co	Active		Admins	
<input checked="" type="checkbox"/>	Irin	Irin		irin@foa.co	Active		Dummy	

Note: If you get an " Error: Cannot delete the super admin user" click again on the delete button and the admin user will be unselected from the list of deleting users.
