F1 - F4 keys not working in ezsh when using PuTTY
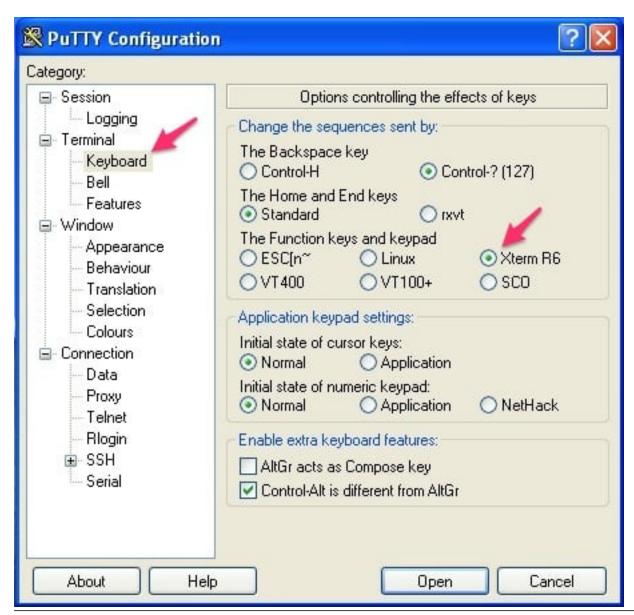

40 admin June 18, 2024   57066

Synopsis: This article provides solution for ezeelogin gateway users experiencing issues with the F1-F4 keys in ezsh when connecting via PuTTY.

In PuTTY configuration window, navigate to **Terminal > Keyboard**. Change the "**Function keys and keypad**" setting to "**Xterm R6**".
