## How do I issue a free trial license in Ezeelogin

**Overview:** This article outlines the steps to register for an Ezeelogin customer portal account, activate a 30-day free trial, and manage your license, including adding remote servers during the trial period.

**Step 1.** Register your email on our [customer portal](#). Provide your email, solve the ReCaptcha and click on the **Submit** button.

### Ezeelogin portal

The screenshot shows the Ezeelogin registration form. At the top, there are three links: "Login", "Register" (highlighted with a green box), and "Forgot password". Below these is an "Email" input field with the text "tiyaezee@gmail.com". Under the email field is a reCAPTCHA widget showing a green checkmark and the text "I'm not a robot". To the right of the reCAPTCHA is a "reCAPTCHA" logo with links for "Privacy" and "Terms". Below the reCAPTCHA is a blue "Submit" button (highlighted with a green box) and a link that says "I have the registration code". At the bottom of the form, there is a light blue box containing two bullet points: "Whitelist [billing@ezeelogin.com](mailto:billing@ezeelogin.com) to ensure that the registration email is delivered to your inbox." and "You can easily opt out of any type of emails we sent including even your account notifications."
