

Default administrator user account in Ezeelogin

462 Manu Chacko August 10, 2024 [Features & Functionalities](#) 2205

Locating the default administrator account in configuration files

Overview: This article explains that the default administrator account in Ezeelogin, created during installation, cannot be deleted or modified, and any changes to the username require uninstalling and reinstalling Ezeelogin.

The default administrator user account will be created at the time of Ezeelogin installation. This account will be the super admin who has all the privileges in Ezeelogin. You cannot delete or modify the username of this account. If you want to modify the username there is no way other than uninstalling and reinstalling the Ezeelogin.

The screenshot shows the Ezeelogin user management interface. The left sidebar contains a navigation menu with options like 'Users', 'User Groups', 'Authentication Log', 'SSH Log', 'RDP Recording', 'SCP Log', 'Web Proxy Log', 'Web Proxy Activity', 'Web Activity', and 'Shell Activity'. The main content area displays a table of users with columns for Username, First Name, Last Name, Email, Status, Expiry, User Group, and Actions. The user 'ezadm178' is highlighted with a green box.

Username	First Name	Last Name	Email	Status	Expiry	User Group	Actions
<input type="checkbox"/>	Celin		Celin@mo.co	Active		Admins	
<input type="checkbox"/>	Felip		Felip@do.co	Active		Admins	
<input type="checkbox"/>	Katherin		Katherin@mo.co	Active		Admins	
<input type="checkbox"/>	Mathew		Mathew@mo.co	Active		Dummy	
<input type="checkbox"/>	Merin		merin@do.co	Active		Dummy	
<input type="checkbox"/>	ezadm178	Administrator		Active		Admins	
<input type="checkbox"/>	zera		zera@dmo.ok	Active		Admins	

You can also find the default administrator user account from the Ezeelogin configuration file.

```
[root@ez ~]# cat /usr/local/etc/ezlogin/ez.conf
