

# Enable/Disable 2FA [Two Factor Authentication] on Ezeelogin

489 Krishnaja May 14, 2024 [Common Errors & Troubleshooting](#) 2299

## How to Enable/Disable Two Factor Authentication (2FA) on Ezeelogin Jump Server?

The ssh interface and the GUI of Ezeelogin Jump Server are now fortified with multi-factor authentication mechanisms such as Google Authenticator, Yubikey, and DUO Security to ensure that access to your Linux containers is bulletproof.

The QR code generation feature is currently affected by the deprecation of the Google Image Charts API, which ceased operation on March 14, 2024. To address this, kindly [update](#) to Ezeelogin version 7.37.5 .

Check out the following article to configure Google Authenticator.
