vi editor not working , insert and delete not working in ssh

49 admin June 26, 2024 Common Errors & Troubleshooting 7435

When we use "less" and "vi" editors, keys such as "Page Up/Down, Home/End, Ins/Del" are not working. How can we fix it?

Try different options of Terminal Emulation in account preferences:

https://www.ezeelogin.com/user_manual/Preferences.html

vt102 or xterm might work. Sometimes you may have to change the terminal emulation of your SSH client such as PuTTY
