

# Record and download RDP recordings

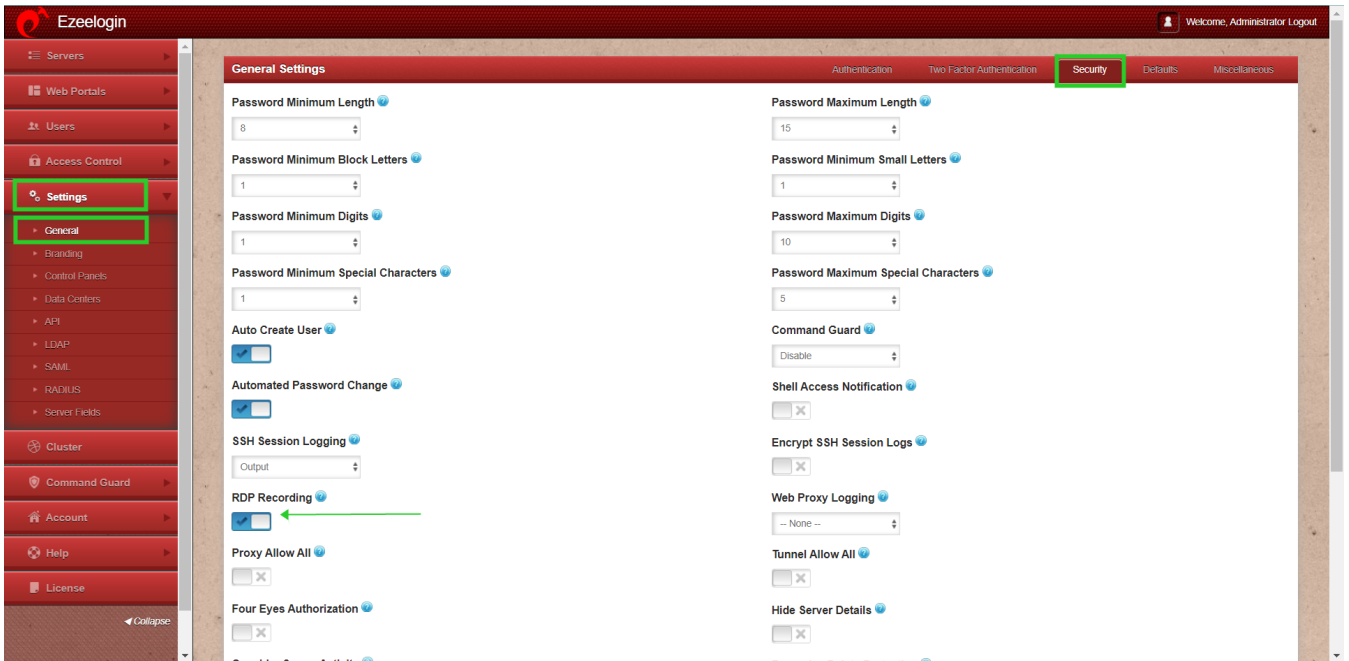

501 Jisna Joseph October 2, 2023 [Features & Functionalities](#), [Getting Started](#) 5747

## How to record and download RDP recordings?

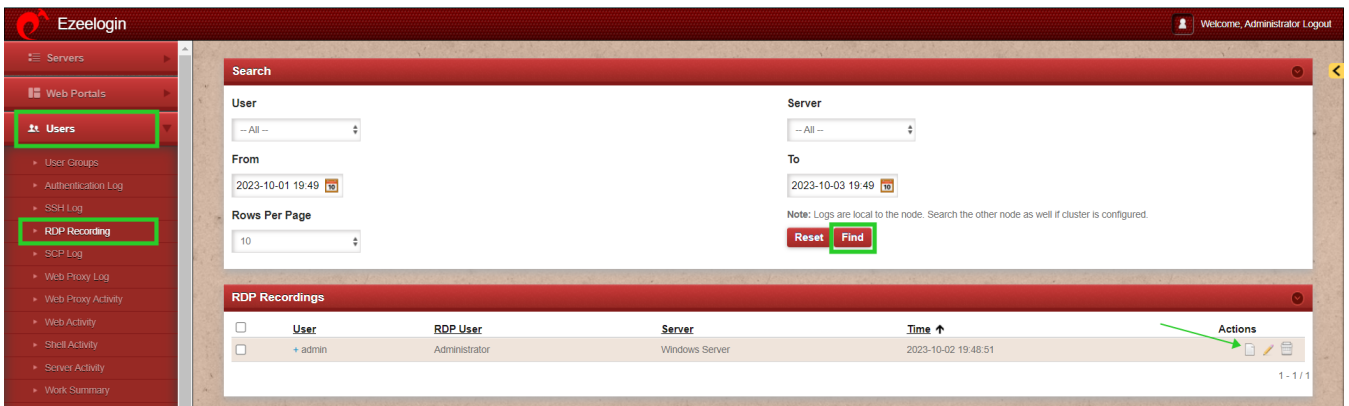

1. Install the RecordRTC plugin. Click on the link <https://chrome.google.com/webstore/detail/recordrtc/ndcljioonkecdnaaihodjgiliohngojp> and add it to your chrome

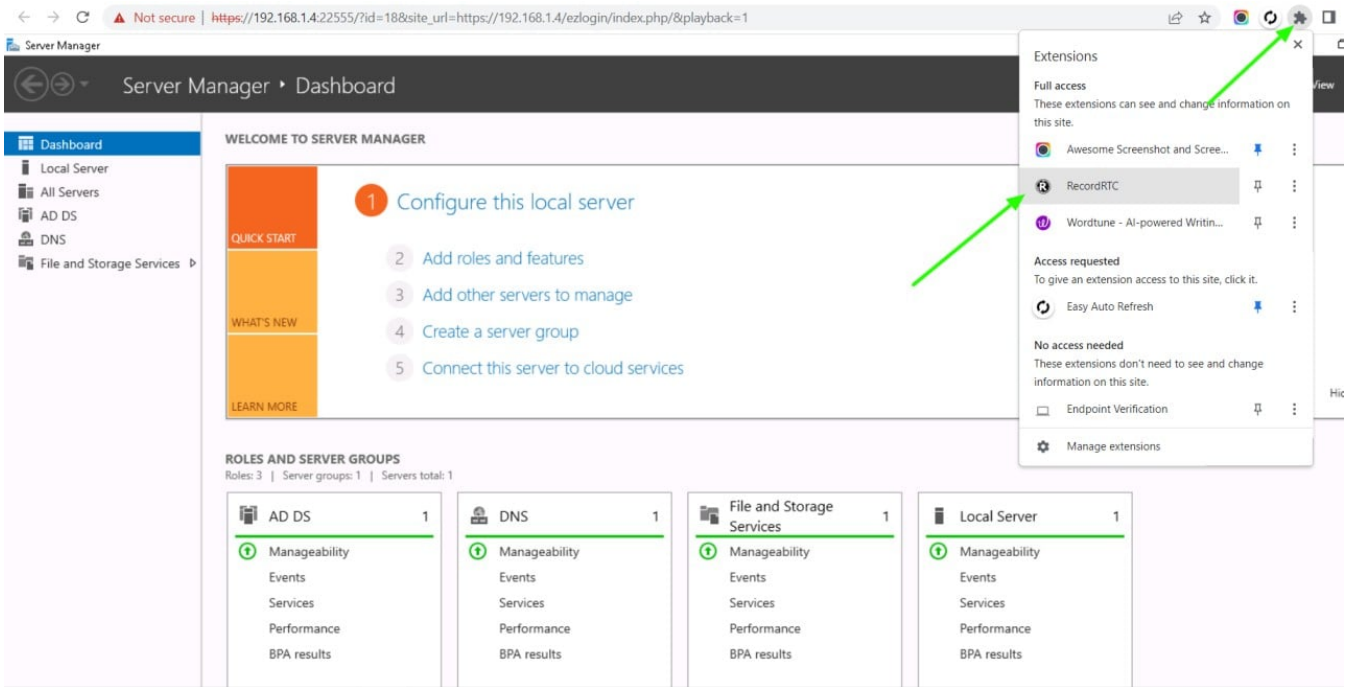

2. Make sure you have enabled the RDP recordings under Settings > General > Security > RDP Recordings.

3. Open RDP recording from the Ezeelogin GUI Users->RDP Recording

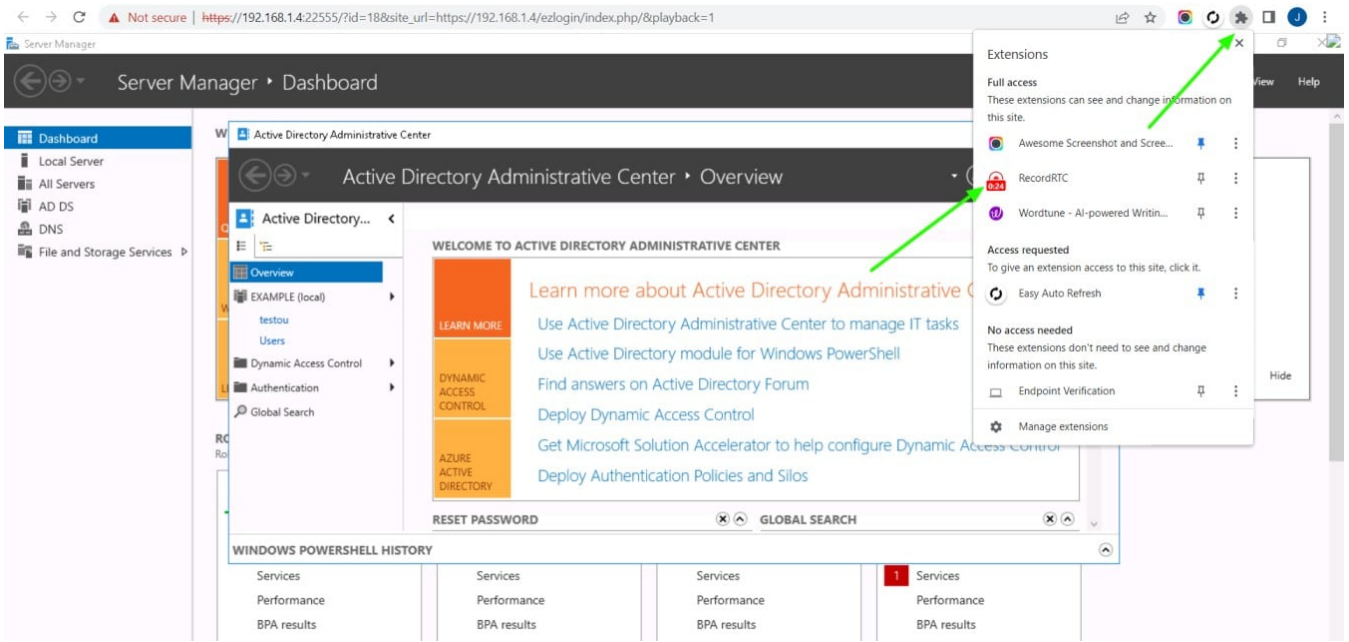

4.. Once the recording starts playing click on the RecordRTC extension added to your Chrome.

5. After clicking on RecordRTC select the Chrome Tab and it will start recording.

The screenshot shows the Microsoft Server Manager dashboard in a web browser. The browser's address bar shows a URL starting with 'https://192.168.1.4:22555/?id=18&site\_url=https://192.168.1.4/ezlogin/index.php/&autoplay=1'. The page title is 'Server Manager - Dashboard'. On the left, there is a navigation menu with 'Dashboard' selected, and sub-items for 'Local Server', 'All Servers', 'AD DS', 'DNS', and 'File and Storage Services'. The main content area is titled 'WELCOME TO SERVER MANAGER' and contains a 'QUICK START' section with five numbered steps: 1. Configure this local server, 2. Add roles and features, 3. Add other servers to manage, 4. Create a server group, and 5. Connect this server to cloud services. Below this is a 'ROLES AND SERVER GROUPS' section showing four categories: AD DS, DNS, File and Storage Services, and Local Server, each with a count of 1 and a list of sub-items like Manageability, Events, Services, Performance, and BPA results. On the right side of the browser, the RecordRTC extension menu is open, displaying various recording options such as 'Screen Only (without audio)', 'Screen + Microphone', 'Screen + Speakers', 'Screen + Microphone + Speakers', 'Chrome Tab', 'Chrome Tab (Audio Only)', 'Full Screen + Camera', 'Microphone + Camera', 'Microphone + Speakers', 'Microphone Only', and 'Speakers Only'. A green arrow points to the 'Chrome Tab' option. At the bottom of the menu, there are links for 'Options' and 'See All Recordings'.

6. To stop recording click again on the RecordRTC extension added to your browser.

7. Once the recording is complete you can download the video to your system.
