

View SSH logs of all users

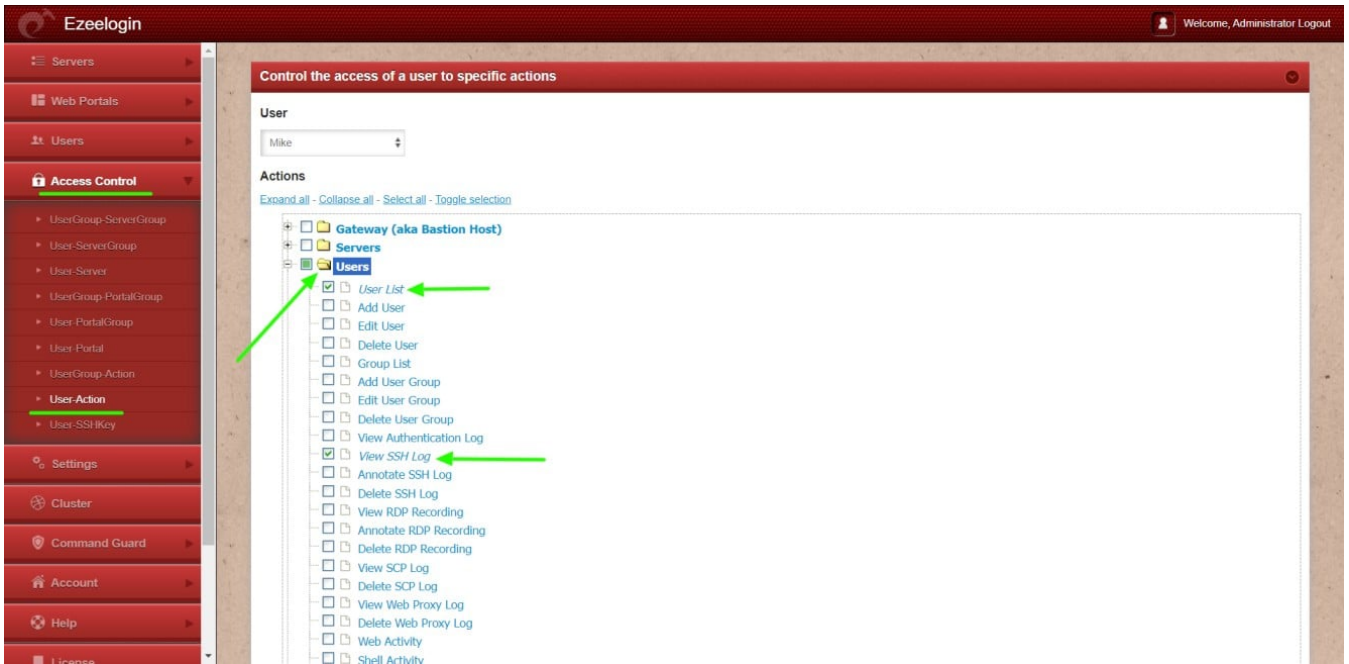

523 Jisna Joseph January 29, 2025 [Getting Started](#) 3858

How to view SSH logs of all users?

Overview: This article explains how to enable a user to view SSH logs of all users in Ezeelogin by configuring user actions and granting the necessary privileges on remote servers.

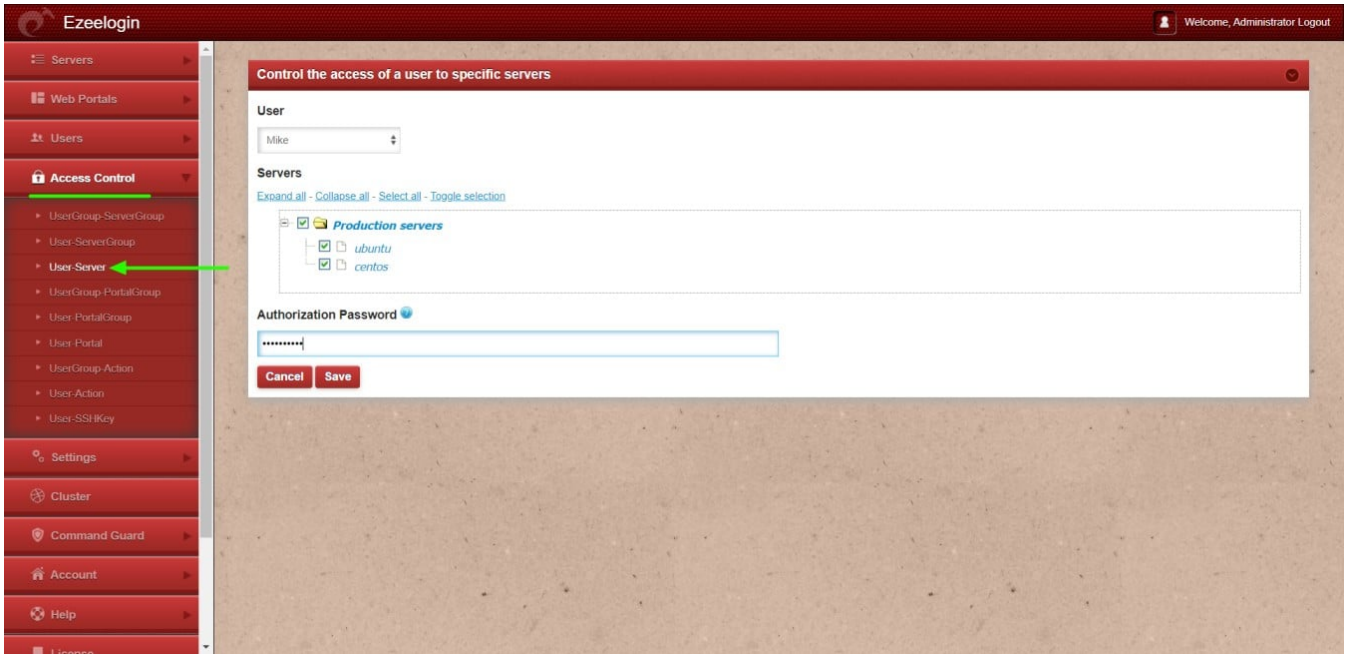

If a particular user needs to view SSH logs of all users then you need to enable **User List** and **View SSH Log** for that user under user action.

Access Control->User Action->Users->User List, View SSH Log. After saving, refresh the Ezeelogin GUI of the user to reflect the changes. You can refer below screenshot

Also, you should grant privileges to the remote servers for the same user to view the logs from that server. If a user has no access to a remote server, then the user will not be able to

view the SSH logs of that server.

Refer below screenshot where Ezeelogin user 'Mike' is able to view SSH logs of all users

The screenshot displays the Ezeelogin web interface. On the left is a navigation sidebar with options: Servers, Users, SSH Log (highlighted with a green arrow), Account, and License. The main content area is titled 'Search' and contains several filters: 'User' (dropdown: -- All --), 'Server' (dropdown: -- All --), 'Log Type' (dropdown: -- All --), 'From' (date: 2022-08-16 17:00), and 'To' (date: 2022-08-18 17:00). Below these is a 'Rows Per Page' dropdown set to 10. At the bottom of the search section are 'Reset' and 'Find' buttons, with a green arrow pointing to the 'Find' button. A note below the buttons reads: 'Note: Logs are local to the node. Search the other node as well if cluster is configured.' Below the search section is a table titled 'SSH logs' with the following columns: User, SSH User, Server, Log Type, Status, Encryption, Time ↑, mExec ID, and Actions. The table contains seven rows of log entries. The bottom right corner of the interface shows '1 - 6 / 6'.

<input type="checkbox"/>	User	SSH User	Server	Log Type	Status	Encryption	Time ↑	mExec ID	Actions
<input type="checkbox"/>	+ admin	root	centos	output	Active	0	2022-08-17 17:00:35		
<input type="checkbox"/>	+ Carlos	root	ubuntu	output	Ended	0	2022-08-17 17:00:07		
<input type="checkbox"/>	+ Ben	root	ubuntu	output	Ended	0	2022-08-17 16:59:47		
<input type="checkbox"/>	+ Carlos	root	ubuntu	output	Ended	0	2022-08-17 16:58:11		
<input type="checkbox"/>	+ Ben	root	centos	output	Active	0	2022-08-17 16:57:45		
<input type="checkbox"/>	+ admin	root	ubuntu	output	Ended	0	2022-08-17 16:56:05
