

View SSH logs of all users

523 Jisna Joseph November 19, 2022 [Getting Started](#) 3520

How to view SSH logs of all users?

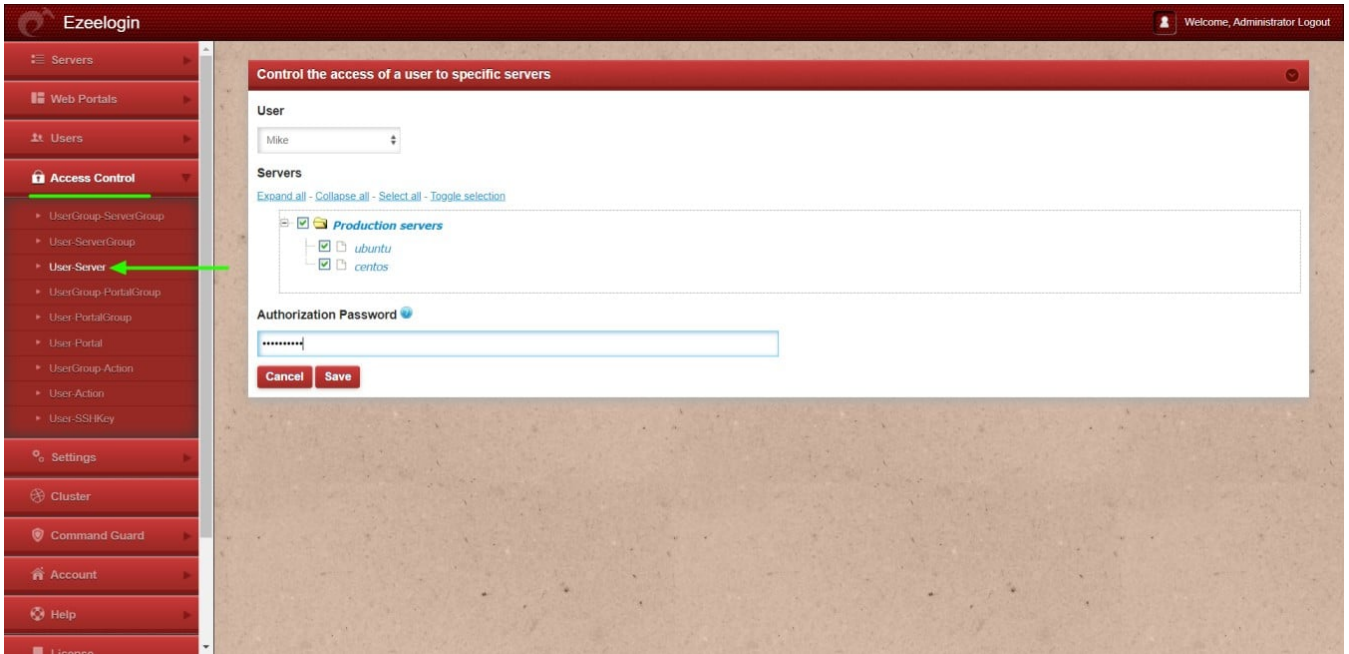

If a particular user needs to view SSH logs of all users then you need to enable **User List** and **View SSH Log** for that user under user action.

Access Control->User Action->Users->User List, View SSH Log. After saving, refresh the Ezeelogin GUI of the user to reflect the changes. You can refer below screenshot

Also, you should grant privileges to the remote servers for the same user to view the logs from that server. If a user has no access to a remote server, then the user will not be able to view the SSH logs of

that server.

Refer below screenshot where Ezeelogin user 'Mike' is able to view SSH logs of all users

The screenshot shows the Ezeelogin web interface. The top navigation bar includes 'Servers', 'Users', 'SSH Log' (highlighted with a green arrow), 'Account', and 'License'. The right side of the header shows 'Welcome, Mike Logout'. The main content area is divided into two sections: a search panel and a table of SSH logs.

Search Panel:

- User:** -- All --
- Server:** -- All --
- Log Type:** -- All --
- From:** 2022-08-16 17:00
- To:** 2022-08-18 17:00
- Rows Per Page:** 10
- Buttons:** Reset, Find (highlighted with a green arrow)
- Note:** Logs are local to the node. Search the other node as well if cluster is configured.

SSH logs Table:

<input type="checkbox"/>	User	SSH User	Server	Log Type	Status	Encryption	Time ↑	mExec ID	Actions
<input type="checkbox"/>	+ admin	root	centos	output	Active	0	2022-08-17 17:00:35		
<input type="checkbox"/>	+ Carlos	root	ubuntu	output	Ended	0	2022-08-17 17:00:07		
<input type="checkbox"/>	+ Ben	root	ubuntu	output	Ended	0	2022-08-17 16:59:47		
<input type="checkbox"/>	+ Carlos	root	ubuntu	output	Ended	0	2022-08-17 16:58:11		
<input type="checkbox"/>	+ Ben	root	centos	output	Active	0	2022-08-17 16:57:45		
<input type="checkbox"/>	+ admin	root	ubuntu	output	Ended	0	2022-08-17 16:56:05
