

# Disabling reCAPTCHA

53 admin October 29, 2024 [Features & Functionalities](#) 9502

## How to disable Recaptcha?

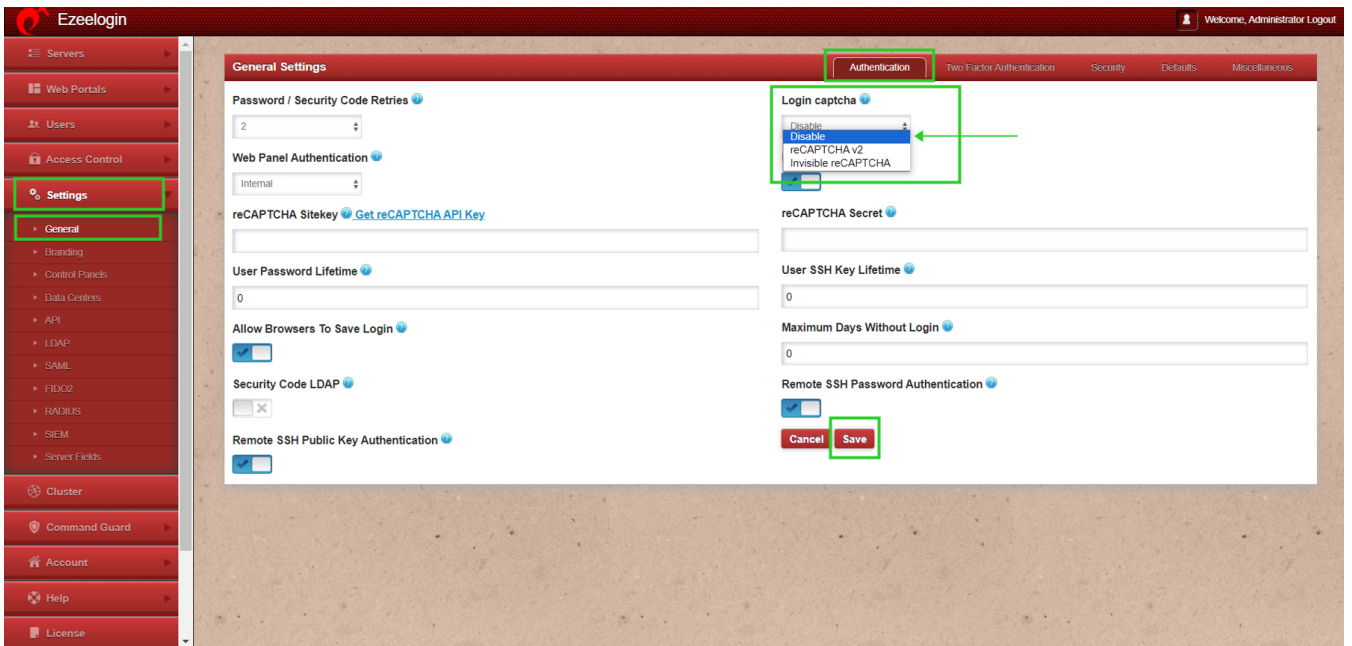

**Overview:** The following article describes how a user can disable recaptcha from GUI and database.

Here are the steps to disable [reCAPTCHA](#) on the login page:

### Disable the captcha on the login page from Ezeelogin Web GUI.

**Step 1:** Navigate to Settings -> General -> under Authentication -> choose to disable Login captcha -> Save it.

### **Emergency CLI Method:**

- Disable the captcha on the login page.

Run the following command to update the login\_captcha setting.

```
root@gateway:~# php /usr/local/ezlogin/ez_queryrunner.php "update prefix_settings SET value='N' WHERE name='login_captcha';"
```

Following these steps will disable the reCAPTCHA on the login page.
