How to disable Recaptcha?

Overview: The following article describes how a user can disable recaptcha from GUI and database.

Here are the steps to disable <u>reCAPTCHA</u> on the login page:

Disable the captcha on the login page from Ezeelogin Web GUI.

Step 1: Navigate to Settings -> General -> under Authentication -> choose to disable Login captcha -> Save it.

Ezeelogin		Welcome, Administrator Logout
E Servers ►	General Settings	Authentication Two Factor Authentication Security Defaults Miscellaneous
📲 Web Portals 🔹 🕨	Password / Security Code Retries 🤪	Login captcha 🗑
tt Users ►	2 *	Disable +

Emergency CLI Method:

• Disable the captcha on the login page.

Run the following command to update the login_captcha setting.

root@gateway:~# php /usr/local/ezlogin/ez_queryrunner.php "update prefix_settings SET value='N' WHERE name='login_captcha';"

Following these steps will disable the reCAPTCHA on the login page.
