

How to add Cyberpanel as web portal in Ezeelogin?

594 Jisna Joseph March 7, 2024 [Features & Functionalities](#), [Getting Started](#) 3569

Adding Cyberpanel as webportal in Ezeelogin for autologin

Cyberpanel will work only from Ezeelogin version 7.29.10

[Webproxy](#), [Webpanel](#), [Webportal](#), [Controlpanel](#)

To add cyberpanel as a web portal in ezeelogin for autologin, install [cyberpanel](#) in a server and follow the below steps.

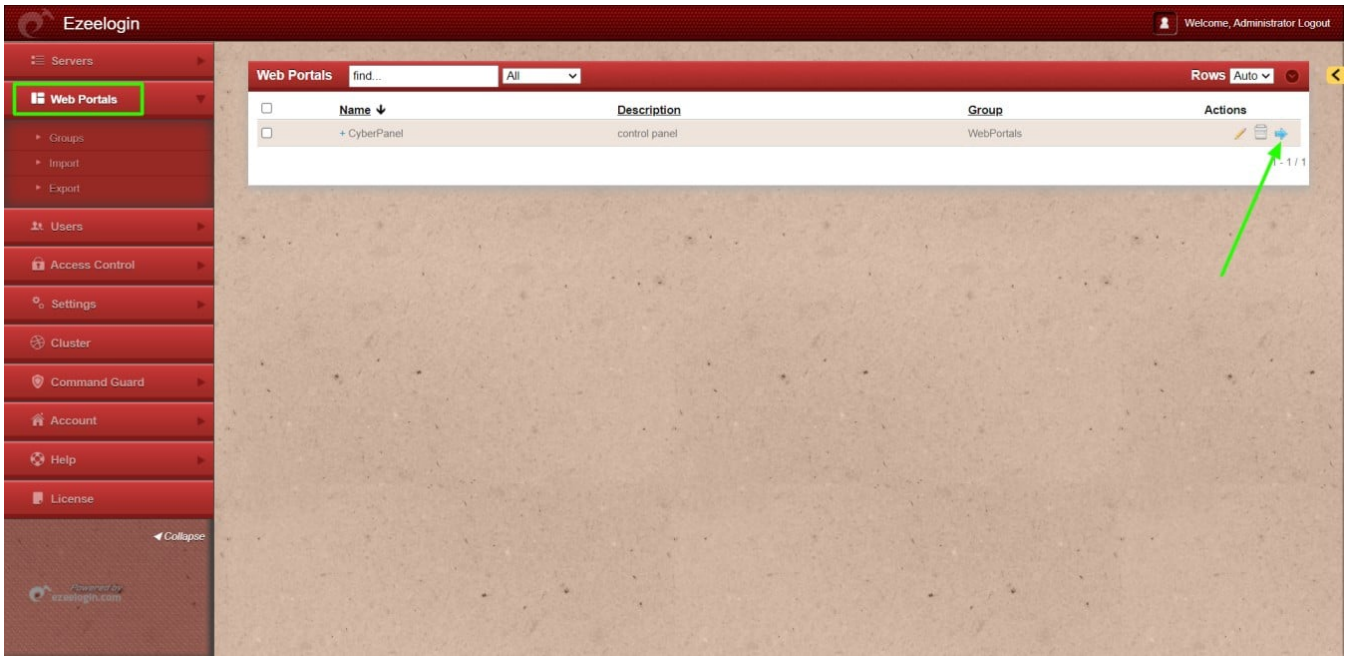

1. Login to **Ezeelogin GUI** -> Click on **Web Portals** tab -> **Add new Web Portal with Auto Login enabled**. Refer below example to add Cyberpanel.

The screenshot shows the Ezeelogin GUI interface for editing a web portal. The left sidebar contains navigation options: Servers, Web Portals (highlighted), Groups, Import, Export, Users, Access Control, Settings, Cluster, Command Guard, Account, Help, and License. The main content area is titled 'Edit web portal' and contains the following fields and options:

- Name:** cyberpanel
