Follow the steps to grant access to the control panel for user "Tom".

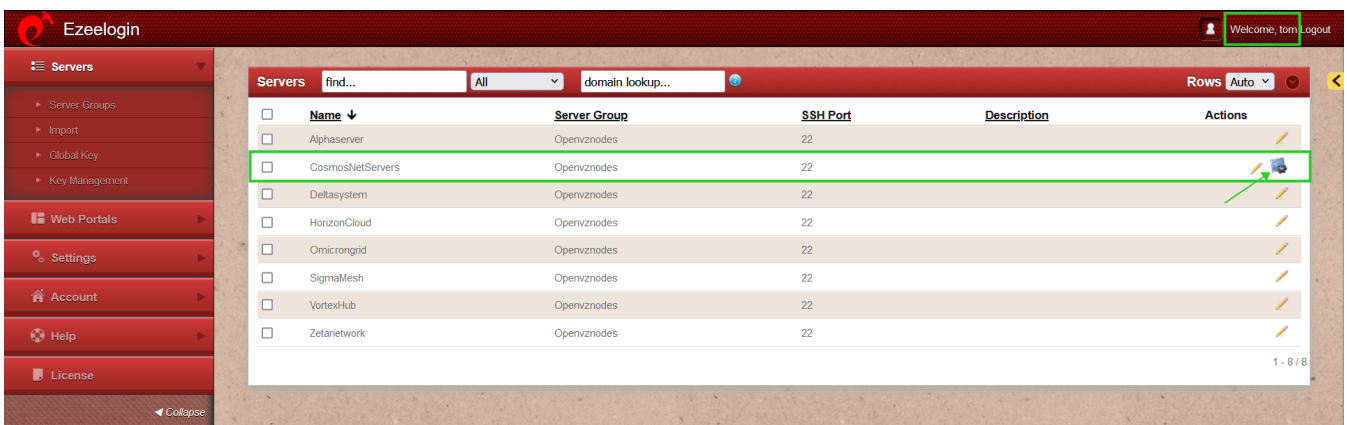

Step 1: Log in to the Gateway Web Interface with a super admin("ezadminxxx") or admin privilege user.

You can use the [access control](#) to grant control panel access to the gateway users.

Navigate to **Access Control > User Action > Servers > Select the particular user to whom you need to grant access to the control panel > and Enable Control Panel Login.**

Step 2: Login As User "Tom" and check; the user would have granted permission to the control panel as follows:

This way, you can ensure user "Tom" has the necessary control panel access by configuring it through the Access Control settings and verifying the changes.
