The advertisement features a dark green background with a white laptop in the center. To the right of the laptop is a stack of server racks. A person is sitting on top of the server stack. To the left of the laptop, a person is standing next to a small white cube. In the background, there are various icons representing data, a cloud, and a gear. The text is white and bold, with a white button containing the text '30 Days Free Trial'.

openSUSE is a free and open-source Linux distribution developed by the openSUSE project. It is offered in two main variations: Tumbleweed, an upstream rolling release distribution, and Leap, a stable release distribution which is sourced from SUSE Linux Enterprise

HOW TO UPGRADE PHP TO 8.2 IN OpenSUSE 15

Step 1. Add PHP Repository for PHP 8.2 packages and refreshes the package manager's data.

Run the following command

```
root@gateway:~# sudo zypper addrepo -f  
https://download.opensuse.org/repositories/devel:/languages:/php/openSUSE_Leap_15.4/  
PHP-OpenSUSE
```

```
root@gateway:~# sudo zypper refresh
```

Step 2. Install PHP 8.2 from the added repository: Adjust the package name accordingly based on what's available in the repository.

```
root@gateway:~# sudo zypper install php8-8.2.15-lp154.150.1.x86_64
```

Step 3. Check the PHP Version. This should display the version of PHP you installed.

```
root@gateway:~# php -v
```

```
ec2-user@ip-172-31-9-146:~> php -v  
PHP 8.2.15 (cli) (built: Jan 18 2024 12:00:00) (NTS)  
Copyright (c) The PHP Group  
Zend Engine v4.2.15, Copyright (c) Zend Technologies  
ec2-user@ip-172-31-9-146:~>
```
