## How to add OpenPanel as Control panel

**Overview:** This article explains how to integrate OpenPanel as a control panel with Ezeelogin and provides instructions on how to access it.

This feature is available only from Ezeelogin version 7.37.11. To avail this, <u>upgrade</u> Ezeelogin to this version.

1.To add the control panel, Loginto Ezeelogin GUI interface and navigate to Settings > Control Panels and make sure to fill the form as follows. Refer to the below screenshot.

Make sure to disable the cPanel/WHM option while adding OpenPanel.								

2.Navigate to **Servers tab** and choose the added control Panel from the drop down menu. **Note that**
